**SOLAR OREGON HOSTS THE CLEAN ENERGY PAVILION AT THE 2010  
BETTER LIVING SHOW, MARCH 26-28**

*Attendees are Invited to Meet Solar Professionals and Learn about Energy Saving  
Technologies and Techniques for the Home and Workplace*

**PORTLAND, Ore. – March 1, 2010** – The third annual Energy Trust Better Living Show, March 26 – 28 at the Portland Expo Center, features the Solar Oregon Clean Energy Pavilion, offering attendees a chance to have direct access to Northwest solar and renewable energy professionals and products. With a bigger space, this year's pavilion features almost two-dozen northwest solar and green technology professionals. From solar and wind technology, geothermal, hydropower, tax incentives or simply looking for alternative energy solutions, there is something for everyone at the Solar Oregon Clean Energy Pavilion.

Hosted by Solar Oregon, a non-profit offering programs to help individuals and businesses switch to solar, guests will be able to view the top technologies in solar energy for the home and for commercial use. From simple actions like purchasing green power to large-scale solar projects to heat an entire house, attendees will find experts to walk them through the best clean tech and local options available today.

Following are some of the products to discover in this year's Solar Oregon Clean Energy Pavilion:

- **Learn the Best Tricks for Going Green at Home.** The Professionals of Solar Energy Solutions, Inc.; Energy Unlimited LLC; and Setanta Solar LLC demonstrate the best in residential solutions like using solar hot water, solar pool heating and residential solar panel systems. Attendees can learn how to use their existing power bill to buy green energy and wind credits through Portland General Electric's (PGE) Green Mountain Energy program. For those looking to make a switch, Wolfers Heating and Air and Enertech Manufacturing offer solar and geothermal heating and cooling systems for the home. For homeowners ready to take efficiency to the next level inside

and out, Ridgeline Electric and Design offers the best in energy efficient lighting choices or completely change the appeal of your home with an eco roof from SolTerra Systems.

- **Turn Your Interior Furnishings into a Heat Source.** Think your couch, wall, or bar table is a waste of space? Why not turn it into passive solar energy to heat your house or business? Solar Interior Design owner and thermal innovator, Ray Pokorny, shows off solar rocks, sofas and tables that can turn your living space into a sustainable self-heating area using passive solar technology.
- **Get Tips From the Top Northwest Residential and Commercial Solar Energy Providers.** Professionals from REC Solar, Inc.; SolarWorld California; LiveLight Energy, LLC; Mr. Sun Solar; DPI Renewable Energy; National Solar; Energy Design; Solar City; Imagine Energy; Hometown Exterior Designs LLC; Sunlight Solar Energy, Inc.; and Sustainable Solutions Unlimited LLC demonstrate the best in residential and commercial solar system solutions from photovoltaic installations to geothermal and small wind projects. Staff is available to talk with attendees and discover the best solutions for their projects.
- **Learn More With Solar and Wind Technology Seminars Presented by Solar Oregon.** Learn the residential and commercial basics of going solar with Solar Oregon's Kevin Berg. Kevin discusses the best in taking your home or business to the next level of solar energy, daily in room E102 - 1:00 p.m. at the Portland Expo Center.
